Newsletter Edition #3, 2026

FROM PILOTING TO PROJECT RESULTS

The **Final Conference** on 29 September marked an important moment for the GoForward partnership.

With **85 participants**, the event provided an opportunity to present the project's key results, reflect on the implementation of the social-integration model and discuss how the developed resources can continue to support Ukrainian women after the project ends.

The conference also highlighted the **importance of cooperation** between Ukrainian women, community organisations, education and support providers, public authorities and businesses in creating sustainable opportunities for integration.

PROJECT RESULTS <<<

The **GoForward e-learning platform** is now ready, bringing together the project's education-social model learning materials in six languages.

The platform provides Ukrainian women with **accessible learning resources** that can support their social integration and participation in the labour market. It also represents an important project result that can continue to be used and shared **after the end of the project**.

By making the materials available in six languages, GoForward aims to make the **developed knowledge and tools accessible to a wider audience** and support their continued use across the partner countries and EU Member States.

The educational-social model was tested in all partner countries through a series of activities designed to provide practical support, encourage participation and create opportunities for connection and learning.

These activities included:

- **Motivation Workshops**, supporting women in identifying opportunities, strengthening motivation and exploring pathways towards participation in working life and society;
- **e-Studio** piloting, providing an opportunity for Ukrainian women to use the project's learning materials and develop relevant knowledge and skills;
- **Ukrainian Women's Days**, bringing together Ukrainian women and local stakeholders and creating space for exchange, networking and discussion.

The activities were evaluated very positively by the participating learners, confirming the relevance and usefulness of the developed approach.

RECOMMENDATIONS FOR CONTINUED SUPPORT

Based on the project experience, partners developed common **recommendations for national authorities, local communities and businesses** on how to strengthen support for Ukrainian women and their integration into the labour market and society.

The recommendations have been translated into the partners' national languages and will be distributed to relevant national and local authorities in Lithuania, Cyprus and Romania.

WHAT REMAINS AFTER GOFORWARD

The **six-language e-learning platform with the social-integration model** and its tested activities, and the recommendations for national authorities, local communities and businesses provide **practical resources** that can be used and shared after the project concludes.

The experience gained through the project has also created a **stronger network** of stakeholders committed to supporting Ukrainian women in their integration into the labour market and wider society.

GoForward may be coming to an end, but the **knowledge, tools and connections** developed through the project can continue to **move forward**.

Thank you to all Ukrainian women, partners, stakeholders and supporters who contributed to GoForward!

Feel free to browse and make use of the learning materials we have developed during the project. They are freely available on e-learning platform accessible on our website !
